

**Corrigendum to: “Noninvasive  
Optical Tracking of Red Fluorescent  
Protein-Expressing Cancer Cells in a  
Model of Metastatic Breast Cancer”  
by Paul T. Winnard Jr., Jessica B.  
Kluth, and Venu Raman published in  
*Neoplasia*, volume 8, number 10,  
October 2006, on pages 796-806**

In this article, the authors reported that the breast cancer cell line was MDA-MB-231. However, a recent short tandem repeat authentication analysis has revealed that this cell line was another breast cancer cell line: MDA-MB-435. The conclusions of the paper are not affected. We regret any inconvenience that this has caused.
